Jamjoom Pharma

Diagnostic Tools

IOP Measurement

- Tonometry is the procedure eye care professionals perform to determine the intraocular pressure (IOP), the fluid pressure inside the eye.
- It is an important test in the evaluation of patients at risk from glaucoma.
- Tonopen is the most advanced & recent portable device.

Fundus Camera

Optic Disc Cup

- Clear picture for the optic nerve disc.
- 5 MP resolution

Materials

Patient presentation

- Arabic presentation will be used during governmental hospitals & campaigns to aware patients about Glaucoma.
- It will also motivate the accompanying doctor to be exposed to the patients.

Materials

Eshraqa Booklet

- Contains essential information about glaucoma & treatment options.
- Will be distributed during sessions.
- It will be used as awareness tool as well.
